## OUR SINGERS SAY

*"I feel I can be more of myself at AVHC than anywhere else. It's the one place besides my own house that I am 100% myself. I love being here and being able to be me no matter what"*

*"Being in AVHC means the world to me. I can't picture what my life would be like without it! I just love everything about learning and creating here."*

*"I learn something new every week. I learn music, theory, and warm ups but mostly I learn how to be brave and sing out and how to be the best person I can be."*

## OUR PARENTS SAY

*"I can't speak more highly of this organization. AVHC provides an all encompassing music education and experience. They have created a safe, caring and inviting environment that allows the choristers to feel like part of a family, while developing high-level skills, self discipline, and growing their passion for music that will be carried throughout their lives. The singers truly become community minded as they learn to share their voice with the world."*
